

# INTELLIFLO

## VARIABLE SPEED PUMP

# WHY MORE POOL OWNERS SAVE WITH INTELLIFLO® VARIABLE SPEED PUMPS

## WANT TO KNOW WHY INTELLIFLO PUMPS OUTSELL ALL OTHER VARIABLE SPEED POOL PUMPS COMBINED?

When Pentair first introduced IntelliFlo variable speed technology, it set off a marketplace revolution with its energy efficiency, near-silent operation and long service life.

The IntelliFlo Variable Speed Pump further refines the field-proven advancements that have led IntelliFlo pumps to outsell all other variable speed brands combined. Check out these advantages and you'll quickly see why:

- ▶ Estimated cost savings of up to \$1400 each year<sup>1</sup>.
- ▶ Energy savings up to 90% versus traditional pumps.
- ▶ Dramatically quieter operation—as low as 45 decibels<sup>†</sup>.
- ▶ 8 programmable speed settings and built-in timer assure optimum speed and run times for maximum efficiency and savings.

<sup>1</sup> Savings based on variable speed pump compared to a 1.5hp single-speed pump running 10 hours per day at an average of \$0.29 per kWh in a 75,000 litre pool. Actual savings may vary based on local utility rates, pool size, pump run time, pump horsepower, pump rpm, plumbing size and length, pump model, service factor and other hydraulic factors.

<sup>†</sup> Compared to noise level of typical 1.5 hp single-speed pump.

## FIRST THEN, FIRST NOW.

INTELLIFLO PUMPS BROUGHT VARIABLE SPEED TECHNOLOGY TO MARKET— A FULL 5 YEARS AHEAD OF EVERY OTHER MANUFACTURER. BUT THE LEADER NEVER STANDS STILL. SO WE'VE TAKEN FULL ADVANTAGE OF OUR HEAD START TO PERFECT THESE INTELLIFLO PUMP FIRSTS:

- ▶ Ultra-efficient permanent magnet motors, as used in advanced hybrid cars.
- ▶ Precise matching of motor speed to your pool's needs.
- ▶ Totally enclosed fan-cooled (TEFC) motor design for long life and quiet operation.
- ▶ Built-in diagnostics protect the pump for longer service life. And today, IntelliFlo pumps still lead the way with all these advantages:
- ▶ Permanent magnet motor design for greater efficiency.
- ▶ More total energy savings than any other pool pump family in history.
- ▶ Over 5 years of proven in-field reliability.
- ▶ Exclusive software and digital controls make programming a cinch.
- ▶ Easy installation for inground pools and pool/spa combos of all types and sizes, new or aftermarket.
- ▶ Once installed, the IntelliFlo pump is fully compatible with IntelliTouch®, EasyTouch® and SunTouch® Control Systems, providing a range of options from indoor control panels to wireless remotes to manage pool heating, lighting, spa jets, water features and more. Add our ScreenLogic® Interface and IntelliTouch and EasyTouch system owners can enjoy pool and spa control using their Android®, iPhone®, iPad®, iPod touch® mobile digital device, Mac® computer or PC<sup>2</sup>.

<sup>2</sup> The IntelliFlo pump also works with other manufacturer's pool/spa controllers when used with a separately purchased IntelliComm® II adapter.

# 90% Savings!

Get the newest IntelliFlo Variable Speed Pump... and put the game-changing, money-saving innovation of IntelliFlo pumps to work for you.

# HOW MUCH ENERGY CAN ONE INTELLIFLO VARIABLE SPEED PUMP SAVE?

Typical single-speed pumps can consume as much energy as all your other home appliances combined. Why not replace that energy hog with an IntelliFlo pump? It uses up to 90% less energy than the typical single-speed pump—savings that translate directly into money in your pocket.

Device	Refrigerator	Clothes Washer	Dishwasher	Single-Speed Pump	IntelliFlo Pump
Annual Energy Used <sup>3</sup> (kWh per Year)	500 kWh	211 kWh	309 kWh	5,475 kWh	569 kWh
	Total Combined Energy Used kWh/Year 1,020 kWh				Total Energy Saved vs. Single-Speed Pump 4,906 kWh/Year

# POOL SIDE PEACE AND QUIET

IntelliFlo pumps introduced a new level of quiet to the pump world. With their permanent magnet motors, totally enclosed fan-cooled (TEFC) design, and low average operating speed, they're so whisper-quiet that you may not even know they're operating.

But the quantity of sound is only one measure of quietness. Sound quality is important, too. That's why we engineered the IntelliFlo pump's permanent magnet motor to virtually eliminate the unpleasant high-pitched noise found in other so-called "quiet" variable speed pumps—so you enjoy a more relaxing, satisfying pool and spa experience.

How quiet is the IntelliFlo pump?

								
Lawnmower	Alarm Clock	Vacuum Cleaner	Single Speed Pump*	Car traffic	Dishwasher	Moderate rainfall	IntelliFlo pump	Library
90dB	80dB	70dB	67dB	67dB	60dB	30dB	45dB	30dB

Decibels (dB)

\*1.5 HP pump. Pumps at distance of 3.28 feet. U.S. car traffic at 50 feet. Sources: American Speech-Language-Hearing Association, OSHA.

# SLOW AND STEADY WINS

CUT THE PUMP SPEED BY HALF, AND YOU CUT ENERGY CONSUMPTION BY 87%. THE GRAPH BELOW SHOWS JUST HOW DRAMATIC YOUR ENERGY SAVINGS CAN BE.

Traditional pumps operate at set, unchangeable speeds. Those speeds are almost always higher than required. As a result, they overpower the jobs they're assigned to do, which wastes energy.

The IntelliFlo pump allows custom programming of optimum pump speeds for specific tasks such as filtering, heating, cleaning, spa jets and waterfalls. For virtually all applications, the optimum speed is lower than the preset, unchangeable speeds of older pumps.

When water moves more slowly for longer periods, it helps reduce the occurrence of algae that forms more easily when water is pumped briskly and then allowed to rest for long intervals. Your filter works more effectively because it has more time to sift out particles from the water, and because particles aren't forced through the filter media under needlessly high pressure. Automatic chemical dispensers and chlorinators also work better when water is kept moving.

# JUST HOW MUCH CAN YOU SAVE?

Single speed pump size	Estimated IntelliFlo Pump Savings Per Year <sup>1</sup>	Estimated IntelliFlo Pump Savings After 5 years <sup>1</sup>
1.5HP 2HP 3HP	up to \$1,400 up to \$2,000 up to \$3,000	up to \$7,000 up to \$10,000 up to \$15,000

Since the cost to operate your pump isn't itemized on your electric bill, you're probably wondering just how much an IntelliFlo pump could save. Here are realistic estimates when comparing a traditional energy-efficient single-speed pump to the IntelliFlo pump in a 75,000 litre pool. Savings are calculated using 10 hours of operation, which represent common run times.

# PROVEN DEPENDABILITY THATS IN A CLASS BY ITSELF

IntelliFlo pumps have amassed a record of field-proven reliability that's unmatched by any other variable speed pump. Here's how:

- Permanent magnet motor runs cooler, produces less vibration than induction motors.
- Totally enclosed fan-cooled (TEFC) design protects against the elements.
- Built-in diagnostics protect the pump for longer service life.

So, when you invest in the superior engineering of an IntelliFlo pump, you'll reap the dividends for years to come. Visit your Pentair professional now...and let the enjoyment begin.

NOTE: The chart above demonstrates performance rates at factory preset speeds of 750 RPM, 1500 RPM, 2350 RPM and 3110 RPM.

## How does your pool pump measure...

### IntelliFlo pumps vs. single-speed pool pumps

Benefit	IntelliFlo Variable Speed Pump	Single-Speed Pumps
Up to \$1,400 estimated cost savings each year <sup>1</sup>	YES	NO
Energy savings up to 90%	YES	NO
Longer pump life	YES	NO
Permanent magnet motor, as in hybrid cars, reduces noise and vibration	YES	NO
Improves filter and chlorinator performance	YES	NO
Helps reduce algae build-up	YES	NO
Lets you add pool features without reducing pump efficiency	YES	NO
Totally enclosed fan-cooled (TEFC) design protects working parts	YES	NO
Built-in diagnostics protect the pump for longer service life	YES	NO
8 programmable speed settings and built-in timer assure optimum speed and run times for maximum efficiency and savings	YES	NO

### IntelliFlo pumps vs. other variable speed pool pumps

Benefit	IntelliFlo Variable Speed Pump	Other Variable Speed Pumps
World's first-ever variable speed pump	YES	NO
More total energy savings than any other pump family in history	YES	NO
Over 5 years of proven in-field reliability	YES	NO
Outsells all other variable speed pumps combined	YES	NO

# AS YOUR POOLSCAPE CHANGES, SO WILL THE INTELLIFLO PUMP

With IntelliFlo pumps you can add equipment and features, or change them, without reducing pump performance and efficiency. Add a cleaner or water feature, or change your filter. Just push a button to set the new optimum speed for the lowest energy use. You keep saving, even as your pool system changes.

# AN ECO SELECT® BRAND PRODUCT

---

The IntelliFlo Variable Speed Pump is designed to maximise the convenience and efficiency provided by Pentair EasyTouch or IntelliTouch automation systems. In response to system commands, the pump delivers just the right water flow so all your equipment operates effectively and efficiently.

As the global leader in pool and spa equipment manufacturing, we strive to provide greener choices for our customers. We hope you'll join us in embracing more eco-friendly pools by choosing Eco Select brand products for your swimming pool.
