

POSI-CLEAR® RP

CARTRIDGE FILTER

Choosing the right filter has never been so clear.

The Posi-Clear® RP filter gives you everything you could ask for in a filter. This new design is nearly 50% more efficient than any other single cartridge filter on the market. At the same time, it delivers top-of-the-line cartridge performance to keep your pool sparkling clean. And cleaning is a breeze, its quick-connect ring makes maintenance a cinch; just open the top, remove the cartridge, hose it off and the Posi-Clear® RP filter is ready to go again.

HIGHLY
COMMENDED

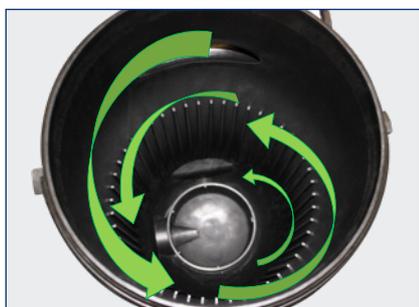

KEY FEATURES

- Unmatched hydraulic efficiency—nearly 50% more energy efficient than other single cartridge filters.
- Cartridge is easy to remove and rinse.
- Quick-connect union with diamond seal assures easy installation and servicing.
- Single-piece base and tank are constructed of fibreglass-reinforced polypropylene for strength and chemical resistance.
- High Flow™ Manual Air Relief Valve and continuous internal air relief work together to maintain optimum filtration efficiency at all times.
- Cyclone Action – The Posi-Clear® offset port causes a cyclone effect inside the filter, the centrifugal force flings out the larger debris, reducing the load on the cartridge.
- Gauge Dial – Easy to set and indicates when it's time to clean.
- Air Release – A ¼ turn air-release action with hose barb, allows you to release without getting squirted with water.
- Raised Port – Raised inlet port allows for easier connection, saving time and money on install, with better hydraulic efficiency.
- 10 Year limited warranty*

The Posi-Clear® RP filter has a side entry port to optimise flow and energy efficiency. And inside, we've maximised the cartridge surface consistency to block and trap particles as small as 10 microns (an average grain of beach sand is 1,000 microns!). Plus, its durable, fibreglass-reinforced tank ensures exceptionally long life.

The Posi-Clear® RP filter's features an easy to clean cartridge for the ultimate in carefree pool filtration. The fibreglass reinforced tank halves are secured with an innovative clamp ring; just loosen the ring and remove the top half for easy cartridge access and rinsing.

CARTRIDGE + CYCLONE FILTER

The raised offset port creates a cyclone inside which flings large debris out.

¼ TURN AIR RELEASE

Just a quarter-turn to release the air from the filter.

PRESSURE GAUGE DIAL

Easy to use indicator.

Filter Model	Product Description	Filter Area ft ² / m ²	Max Flow (LPM)	Turnover Capacity (Litres)		
				8 Hours	10 hours	12 hours
160351	Posi-Clear® RP 100.sq ft.	100 / 9.3	380	182,000	228,000	273,000
160352	Posi-Clear® RP 150.sq ft.	150 / 13.9	570	273,000	342,000	410,000
160350	Posi-Clear® RP 200.sq ft.	200 / 18.6	570	273,000	342,000	410,000
